

Sophisticated craftsmanship enhances the elegant profiles of the Doris collection

Among the latest proposals of **Opera Contemporary**, presented for the very first time at the Salone del Mobile.Milano 2019, stands out the elegant charm of the **Doris** collection, designed by **Castello Lagravinese Studio**. The dazzling collection features sculptural asymmetries that lend to the living spaces a rational and sophisticated appeal.

The rounded profiles of the collection - that includes sideboard, bar cabinet, TV stand, vanity desk, and bedside table - interact with the linear and slim metallic structure of the legs. Metal, wood, fabric, and marble create sophisticated material contrasts that envelop every piece. The result is an alluring system of furnishings and decorative objects that articulate the perfectly integrated spaces in a fascinating and refined material journey.

With a rigorous and sophisticated stylistic language in which curves and artfully orchestrated shapes converge, Doris narrates Opera Contemporary's bespoke and contemporary savoir-faire and its attention towards highest-level craftsmanship.
